INTRODUCING ALCUMUS SAFECONTRACTOR

We believe in building a better working world...

As the UK's leading accreditation scheme with over 20 years' experience, SafeContractor connects over 35,000 contractors to 480 leading brands to help demonstrate extremely rigorous standards and legal compliance.

Our SSIP and PAS91 contractor accreditation scheme checks that you meet the necessary requirements around health and safety, equal opportunities, diversity and environmental management practices – all in one place.

Contractors just like you partner with SafeContractor to achieve accreditation every day and we've built our service around your needs. SafeContractor accredited shows your clients that you're committed to continuously improving health and safety standards and sustainable and ethical practices.

With the SafeContractor approved seal, you can show that your business is credible, helping to win more clients and providing complete peace of mind that you meet the right standards.

We're proud to be one of the first and largest SSIP schemes in the supply chain compliance space to receive its UKAS accreditation. So, you can trust that we are committed to abiding by the best practices we are helping your business to employ!

SAFECONTRACTOR HELPS YOU:

Prove your commitment to safety and ethical practices by displaying the SafeContractor approved seal

Show your business is credible to help win more clients

Gain complete peace of mind that your business meets the right standards

Stay ahead of the competition when tendering for work

THERE ARE MANY REASONS WHY SAFECONTRACTOR IS RATED EXCELLENT ON REVIEWS.IO:

A SSIP founding member over 20 years' experience

Full PAS91 compliance

An internal technical team of 80, the largest in the UK, to help you succeed

Tailored risk-based questions so it's relevant to your profession

Easy-to-follow accreditation guidance notes and template

WHY CHOOSE SAFECONTRACTOR ACCREDITATION?

EXPERT SUPPORT

One reason why SafeContractor is so popular is our fantastic technical team of experts. We have the largest in-house team of health, safety and ethical professionals in the UK - ready to guide you every step of the way.

ONE-TO-ONE SUPPORT

Each contractor is assigned a Technical Support Officer (TSO) and an auditor who work with them to make sure the necessary paperwork and documentation is complete, providing one-to-one support throughout.

MAKE YOUR BUSINESS STAND OUT

SafeContractor accreditation is a recognised way to prove that you're compliant with all the latest relevant legislation, follow best practice and meet all the standards for your industry, opening members up to more work opportunities.

SAVINGS AND DISCOUNTS

Access to member benefits that can help you with the everyday running of your business. These include Save up to £2,000 a year with exclusive discounts from leading brands These include

- Insurance products exclusively for Alcumus members

We're proud to be one of the first and largest SSIP schemes in the supply chain compliance space to receive its UKAS accreditation. So, you can trust that we are committed to abiding by the best practices we are helping your business to employ!

MEET OUR TEAM

Our expert team are here to help you all the way, during the accreditation process and throughout your membership. They'll work with you to understand your business, work activities and compliance requirements so that we provide you with the best package to gain accreditation, build your business profile and stand out from the competition.

Michael, our Business Development Executive (BDE), is here to start the process off

His role is to help you understand what SafeContractor is, how it can help your business by understanding the challenges you face and explain the accreditation process and membership benefits to find out if what we offer is a good fit for you. He's been working as a BDE for seven years and brings a wealth of knowledge and genuine care to helping the contractors we work with.

When he's not spending time speaking to contractors, he enjoys playing football, going for a run in the evening and taking his dog for a long walk with his family on the weekend.

Once you've registered with SafeContractor, one of our Technical Support Officers (TSOs) will contact you to help build your profile with SafeContractor. This includes selecting your core work categories, the industries you operate in and the risks related to your activities.

Tom, our Technical Support Officer, is here to help you through the accreditation process

As a TSO, Tom has worked at Alcumus for five years helping contractors through the initial pre-audit health and safety questionnaire, making sure that all the correct documents are ready for the audit stage.

When he's not working with contractors, his spare time is very much fitness and sport orientated playing rugby for Taffs Well and football for Talbot Green, going to the gym and from time to time gaming.

When you've completed the questionnaire and returned it to us, your TSO will review your questionnaire to check all relevant, in date documents have been provided, and send it to an auditor for a detailed review. If anything is missing, we'll work with you to get it sorted. When your auditor is happy you meet the assessment criteria, they'll issue the accreditation which will last for 12 months.

Keith, our Auditor, is here to review and approve your accreditation application

He's been an auditor at SafeContractor for six years, assessing the health and safety audit applications submitted by contractors.

When I'm not reviewing accreditation applications, he spends as much of his time as he can travelling and sightseeing or watching his local team play rugby. He's also a bit of an amateur cook and baker and enjoys DIY and gardening.

Once you become a SafeContractor member, our UK-based customer care team are on hand to support with managing your membership and any queries about your account or benefits package.

Rhys, our Customer Care Advisor, is here to help you manage your membership plan

He has worked in the customer care team for three years, helping our members with any questions or concerns or membership needs.

When he's not on hand for our members, he's a big football fan and coaches his son's team on the weekend.

Each year, you'll need to renew your SafeContractor membership and our Accounts team are here to support your renewal and to make sure that you're receiving all the benefits of your accreditation.

Alex, our Account Executive, helps our members to renew their accreditation

As an Account Executive, he helps our members to renew their SafeContractor membership, providing guidance on making sure our members have the right package to suit their needs and support during the process.

A key part of the SafeContractor accreditation process, and demonstrating your capabilities to your clients, is maintaining up-to-date insurance information. That's why we offer Alcumus Insurance Services, so that our members remain insured at the best price with up to a 20% discount on insurance policies underwritten by Zurich.

Ant, our Senior Advisor at Alcumus Insurance Services, advises on a wide range of business insurances

He's worked in the Customer Service team at Alcumus Insurance Services for just over two years, helping our members with renewals, amendments and any queries they may have with their policy. Always quick to answer and happy to help, Ant works on your behalf with various insurers to get you the best cover to suit your needs.

Outside of work, he's been known to enjoy a good gaming session and is a fan of a jaunt in the countryside with his family.

As a SafeContractor member, you also have access to our extended Alcumus team, who provide health and safety and HR Consultancy and Certification, providing you with any additional support you may need.

Lou helps our members with additional support for their businesses

She's on hand to tell you about our support services by understanding what challenges your business may face and recommending the best solutions that Alcumus can help you with.

Living in the popular tourist destination – Torbay – otherwise known as the English Riviera, she's lived in Wales for ten years and shares her home with her cat, Millie and French Bulldog, AJ. A big sports fan, her football passion is dedicated to Liverpool FC.

SafeContractor's service gave us confidence that their team would support us through the audit process and empower us to achieve accreditation. The support provided by our auditor felt encouraging, personable and exceeded our expectations.

JOHN FOXX & CO

WE HAVE CONTRACTOR PLANS FOR EVERY BUSINESS
